The image shows a 'Create database' dialog box with a title bar and standard window controls. It has two tabs: 'General' (selected) and 'Transaction Log'. The 'General' tab contains the following elements:

- Database Name:** A text input field.
- Database file:** A section containing a table with four columns: 'File name', 'Location', 'Initial size (MB)', and 'File group'. Below the table is a file explorer bar with a folder icon and a 'Browse...' button.
- File properties:** A section with a checked checkbox 'Automatically grow file'.
- File growth:** Two radio buttons: 'in megabytes' (selected) and 'by percent'. The 'in megabytes' option has a numeric input field set to '1'.
- Maximum file size:** Two radio buttons: 'Unrestricted file growth' (selected) and 'Restrict file growth (MB)'. The 'Restrict file growth (MB)' option has a numeric input field.

At the bottom of the dialog are three buttons: 'OK', 'Cancel', and 'Help'.

Handwritten annotations include:

- '530' pointing to the 'General' tab.
- '505' pointing to the 'Transaction Log' tab.
- '532' pointing to the 'Database file' section.
- '534' pointing to the 'File growth' and 'Maximum file size' options.
